1. Applicant's election with traverse of Group II, claims 5-20 in Paper No. 3 is acknowledged. The traversal is on the ground(s) that applicant is selling the exact purse and liner in claims 1-4 that is claimed in claims 5-20 and there fore there isn't any distinction. This is not found persuasive because The purse and liner of claims 5-20 be used differently and could be sold in a store with the elements chosen from a sales person rather than by the internet, as claimed in claims 1-4. Moreover the purse and liner combination could be used at home by the owner with various purse bodies or liners made by the owner to match outfits. The claimed in claims 1-4 could have an opening at the side rather than an opening at the cop as claimed in claims 5 and 14 and the liner of claim 11 could be used in a purse without a handle, as claimed in claim 1. Moreover claim 1 calls for the containers to be attached to the outside of the purse while claims 5 calls for a container to be place within a purse. For the above reasons the claims in Groups I and II are considered to be distinct from each other.

The requirement is still deemed proper and is therefore made FINAL.

Claims 1-4 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 3.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: the features "11", "14", "22", "64", "78" and "96" do not appear to have been identified. A proposed drawing correction or corrected drawings are required in reply to

the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

- 3. Claims 5, 7-9, 18 and 19 objected to because of the following informalities: It appears that applicant has misspelled "inter" in the claims. Appropriate correction is required. I
- 4. Applicant is advised that should claim18 be found allowable, claim 19 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
- 5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5, 7-13, 15 and 16 rejected under 35 U.S.C. 102(b) as being anticipated by Siegel.

Applicant's attention is invited to Figures 3-6 of Siegel showing a purse with an open top and handle and which receives a removable liner (144) having sides and a bottom and also fastener means comprised of snaps (150, 171) or hook and loop material (200, 206) for receiving various pouches (!70, 180 and 190) having different configurations and sizes dependent on what they are intended to hold.

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 6, 14 and 18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Siegel in view of Cantor..

To have further provided pouches, which are secured to the exterior of the housing to prevent theft or injury from attempted theft, would have been obvious in view of such teaching by Cantor (note the snaps or Velcro 24)

7. Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Siegel in view of Rosen.

To have secured the removable liner of Siegel to the purse with snaps to retain it in the purse would have been obvious in view of such teaching by Rosen at 33..

- 8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kase, Sutton, Rosenberg and Baquero et al, show the use of snaps to secure bags and covers. Fromm and Salz show hook and loop material securing inner bags and covers together. Coquin and Tucker show pouches or containers secured in bag interiors.
- 9. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a).
